

PROJECT TABLE OF CONTENTS

DOCUMENTS 00 - INTRODUCTORY, BIDDING, AND CONTRACT REQUIREMENTS

- 00101 BID SCHEDULES
unit prices, additive and deductive bid items, and options
- 00102 LIST OF DRAWINGS
lists the drawings for the project
- 00120 SUPPLEMENTARY INSTRUCTIONS TO BIDDERS
requirements for special bidding instructions associated with bids for items such as unit prices, additive items, and option items

DIVISION 01 - GENERAL REQUIREMENTS

- 01200 GENERAL REQUIREMENTS
place scope here
- 01270 MEASUREMENT AND PAYMENT
lump sum schedule payment items and unit price schedule payment items
- 01330 SUBMITTAL PROCEDURES
general procedures regarding submittals, data normally submitted for review to establish conformance with the design concept and contract documents, called for in other sections of the specifications
- 01355A ENVIRONMENTAL PROTECTION
environment protection during construction activities
- 01356A STORM WATER POLLUTION PREVENTION MEASURES
temporary construction measures most used in complying the Best Management Practices of the storm water pollution prevention plan as required by a NPDES Permit
- 01420 SOURCES FOR REFERENCE PUBLICATIONS
listing of organizations whose publications are referenced in other sections of the specifications.
- 01451A CONTRACTOR QUALITY CONTROL
Contractor Quality Control for construction projects or design-build construction projects
- 01702 AS-BUILT DRAWINGS
place scope here
- 01770N CLOSEOUT PROCEDURES
project closeout requirements required for use in all projects

DIVISION 02 - SITE CONSTRUCTION

- 02100 CLEAR SITE AND REMOVE OBSTRUCTIONS
place scope here
- 02233 CLEARING FOR CIVIL WORKS
furnishing all labor and equipment and performing all work required for clearing and disposal of trees, stumps, clearing fences, buildings, and other structures and disposal of debris, trash, and materials resulting from clearing operations
- 02300 EARTHWORK
earthwork activities for buildings, utilities, roadways, railroads, and airfields
- 02315N EXCAVATION AND FILL
earthwork requirements for buildings, roads, and utilities
- 02330 EMBANKMENT FOR EARTH DAMS
preparing the embankment and blanket foundations and placing and compacting all permanent fills and backfills
- 02331 LEVEE CONSTRUCTION
levee construction
- 02378 GEOTEXTILES USED AS FILTERS
furnishing, hauling, and placing the geotextile, complete, as specified and shown, and maintaining the geotextile until placement of the granular filter material, bedding material, and/or riprap cover is completed and accepted
- 02600 STONE PROTECTION
place scope here
- 02650 GROUTING STONE PROTECTION
place scope here
- 02722 AGGREGATE AND/OR GRADED-CRUSHED AGGREGATE BASE COURSE
base course to be used directly under bituminous pavement courses
- 02821 FENCING
chain link fence for general and high security applications and farm style fence
- 02821N CHAIN LINK FENCES AND GATES
chain-link fencing and is intended to be used in specifying chain-link fence for general-purpose and special-purpose use

DIVISION 03 - CONCRETE

- 03100A STRUCTURAL CONCRETE FORMWORK
formwork for cast-in-place concrete and will be used with Section 03300 CAST-IN-PLACE

STRUCTURAL CONCRETE. Formwork for architectural cast-in-place concrete is specified in Section 03330 CAST-IN-PLACE ARCHITECTURAL CONCRETE.

- 03151A EXPANSION, CONTRACTION AND CONSTRUCTION JOINTS IN CONCRETE FOR CIVIL WORKS materials, techniques and workmanship requirements for forming expansion, contraction and construction joints in concrete structures
- 03200A CONCRETE REINFORCEMENT concrete reinforcement, including welded wire fabric, for building construction in conjunction with Section 03300 CAST-IN-PLACE STRUCTURAL CONCRETE
- 03201 STEEL BARS AND WELDED WIRE FABRIC FOR CONCRETE REINFORCEMENT FOR CIVIL WORKS furnishing all equipment, materials and labor for providing and placing steel bars, steel welded wire fabric and accessories for concrete reinforcement
- 03301A CAST-IN-PLACE STRUCTURAL CONCRETE FOR CIVIL WORKS furnishing, hauling, and placing the cast-in-place structural concrete complete, as specified herein and shown on the contract drawings
- 03307 CONCRETE FOR MINOR STRUCTURES projects involving amounts of concrete less than 500 cubic yards

DIVISION 05 - METALS

- 05055A METALWORK FABRICATION, MACHINE WORK, MISCELLANEOUS PROVISIONS general workmanship applicable to the fabrication, assembly and testing of various items of metalwork and machine work
- 05120 STRUCTURAL STEEL structural steel used in building construction
- 05502 MISCELLANEOUS METAL

DIVISION 11 - EQUIPMENT

- 11287 TAINTER GATES AND ANCHORAGES fabrication, assembly, delivery, and installation of tainter gates, anchorage assemblies, and appurtenant items

DIVISION 14 - CONVEYING SYSTEMS

- 14600S HOISTS AND CRANES single girder-type electric, overhead cranes and electrification system, with capacity from 1 ton to 10 tons 907 kilogram to 9072 kilogram and maximum span of 70 feet 21350 millimeter

DIVISION 16 - ELECTRICAL

- 16050S BASIC ELECTRICAL MATERIALS AND METHODS This broadscope section covers requirements common to all electrical sections.
- 16070A SEISMIC PROTECTION FOR ELECTRICAL EQUIPMENT seismic protection of electrical equipment, conduit, and exterior utilities. This guide specification will be used in conjunction with Section 13080 SEISMIC PROTECTION FOR MISCELLANEOUS EQUIPMENT
- 16081 APPARATUS INSPECTION AND TESTING electrical inspection and testing
- 16120A INSULATED WIRE AND CABLE all insulated wire and cable for use on Civil Works hydraulic structures of the Corps of Engineers, except for wire and cable for special applications, such as low-level circuits for analog signals, data and supervisory control, communication and telemetering systems
- 16261 VARIABLE FREQUENCY DRIVE SYSTEMS UNDER 600 VOLTS variable frequency drive for motors rated up to 575 volts, for use on electric power systems of 600 volts or less, 50/60 hertz
- 16264A DIESEL-GENERATOR SET, STATIONARY 15-300 KW, STANDBY APPLICATIONS stationary diesel driven generator sets in the 15 to 300 kilowatt capacity for standby applications
- 16265A UNINTERRUPTIBLE POWER SUPPLY (UPS) SYSTEM ABOVE 15 KVA CAPACITY requirements for static UPS to provide continuous ac power to critical loads and/or to improve the quality of ac power to critical loads
- 16272 THREE-PHASE PAD-MOUNTED TRANSFORMERS three-phase pad-mounted transformers of the dead-front and live-front types for exterior applications
- 16375A ELECTRICAL DISTRIBUTION SYSTEM, UNDERGROUND underground electrical distribution systems
- 16403A MOTOR CONTROL CENTERS, SWITCHBOARDS AND PANELBOARDS motor control centers, switchboards and panelboards by formal advertising, using a SUPPLY-type contract
- 16404A 480-VOLT STATION SERVICE SWITCHGEAR AND TRANSFORMERS 480-volt station service switchgear and transformers normally used for hydroelectric power plant facilities, navigation locks and pumping plants
- 16410A AUTOMATIC TRANSFER SWITCH AND BY-PASS/ISOLATION SWITCH low voltage applications of automatic transfer switches (ATS) and ATS with by-pass/isolation switches

16528A EXTERIOR LIGHTING INCLUDING SECURITY AND CCTV APPLICATIONS
 lighting for roads, walks, security, and closed circuit television (CCTV) assessment
